Nursing and Midwifery are the two wings of an angel; through their "
"cooperation and synergy, they guarantee the health of the community

Dear prospective student,

warm greetings from Tabriz, a city where history meets innovation, and compassion shapes the future of healthcare.

As the Dean of the Faculty of Nursing and Midwifery at Tabriz University of Medical Sciences, it is my pleasure to introduce you to one of Iran's most respected and dynamic academic institutions in the field of health sciences.

Our faculty is more than just a place of learning— it is a community built on empathy, excellence, and global vision. With decades of experience, we have trained . thousands of nurses and midwives who now serve with distinction across the world. Here, you will not only gain advanced clinical knowledge and hands-on experience, but also develop the emotional intelligence and ethical foundation that define truly exceptional caregivers.

Our programs are designed to meet international standards, combining rigorous academic training with real-world practice in teaching hospitals and simulation labs. You will learn from distinguished professors, collaborate with passionate peers, and engage in research that addresses global health challenges.
