Overview

The Research and technology deputy of the Tabriz Faculty of Nursing and Midwifery is committed to fostering a dynamic research environment that promotes the development and application of diverse quantitative and qualitative research methodologies

Mission

Our mission is to empower faculty, students, and practitioners to engage in rigorous research that addresses critical issues in nursing and midwifery practice. We strive :to

:Encourage Innovative Research

Support the exploration of new ideas and methodologies that advance nursing and midwifery practices, ensuring that our research is at the forefront of healthcare .innovation

:Enhance Research Capacity

Provide training and resources to enhance the research skills of our faculty and students, equipping them with the necessary tools to conduct high-quality quantitative and qualitative studies

:Facilitate Collaboration

Foster interdisciplinary collaborations that bridge gaps between nursing, midwifery, and other healthcare disciplines, promoting comprehensive approaches to research that address complex healthcare challenges
