

Curriculum Vitae

Last update: 6.11.2022

Personal Information

First Name: Vahid

Last Name: Pakpour

Title: Assistant professor

Department: Community Health Nursing

Nationality: Iran

Date of Birth: 18.12.1983

Place of Birth: Tabriz

Address: Nursing & Midwifery school

Phone No.:

Email: VahidPakpour@gmail.com

Researcher IDs

ORCID: 0000-0002-7554-4198

Academic Qualifications

Bsc in Nursing 2007

Master of Nursing (Community Health Nursing) 2010

Ph.D in Nursing 2016

Field of interests (or the major research areas)

Geriatric Nursing,
Qualitative studies,
Health promotion,
Home Care

Professional Membership: (Administrative or executive Experience ...)

Member of EDO in Zanjan University of Medical Sciences 2011- 2012

Member of research committee in Zanjan University of Medical Sciences 2011- 2012

Member of Student research committee in Tabriz University of Medical Sciences 2012-2016

Member of Cultural Council of Tabriz Nursing and Midwifery Faculty 2014-2016

Member of the Executive Committee of the National Conference of Clinical Education in Nursing and Midwifery 2006

Member of the research group in Tabriz Nursing and Midwifery Faculty 2022-now

Member of the Education Council 2018-2022

The head of the nursing faculty in the first regional festival and the fourth educational student festival of Shahid Motahari

Secretary of Student Research Committee of Tabriz Nursing and Midwifery Faculty 2013-2015

Membership in scientific societies and committees

Member of the Iranian Nursing Association

Member of the Scientific Society of Community Health and Elderly Nursing of Iran

Teaching Experience

Community health nursing- Epidemiology, Public health- Planning & evaluation of Community health nursing- Teaching methods to the individual, family and community

Research Projects

- The process of older people transition from home to aged care home; a grounded theory study
- Psychometric Properties of the Persian Version of “Vulnerability to Abuse Screening Scale” in older people
- The relationship between expectations regarding aging and resilience in the adults age groups 45 and older
- Development of an educational program to help nursing students and nurses to pass through the Comfort Zone in corona crisis.
- Nursing students' perception of the current and expected clinical learning environment in Iran University of Medical Sciences
- Relationship between daily activities and sleep quality in the elderly of Zanjan city
- Nursing students' perception of the current and expected support and supervision in clinical learning environment in Zanjan University of Medical Sciences
- Professional relationship between doctors and nurses from the view point of nurses and its relationship with the job satisfaction of nurses working in medical training centers of Zanjan University of Medical Sciences.

- Psychological stress and its relationship with optimism in parents of children with cancer referred to Tabriz Children's Hospital
- Experiences of family members of cancer patients from living with a cancer patient: a qualitative study
- Comparison of stress caused by cancer diagnosis, stress in marital relationships and separation in male and female cancer patients referred to Tabriz Hematology and Oncology Center
- Relationship between loneliness and sleep quality in elderly people living in family and nursing homes in Tabriz

Thesis (Supervisor or Advisor)

- Resilience and its relationship with professional quality of life and intention to leave in nurses working in critical care unit of Tabriz educational centers
- Health Promotion Behaviors and Its Relationship with self-worth and Resilience among older people in Tabriz
- The study of knowledge and attitude of nurses and nursing students of Tabriz University of Medical sciences about older people

- The Quality of Life and Its Relationship with Perceived Needs and Family Function from the Viewpoint of Elderly of Stroke Survivors Referring to Neurology clinics of Tabriz University of Medical Sciences
- Comparison of self-care behaviors and its relationship with nutritional behaviors and health literacy in elderly women with osteoporosis and healthy referred to the bone density assessment center of Sina Hospital in Tabriz
- Knowledge, attitude, and practice of the pre-diabetic elderly referred to Sina Hospital in Tabriz regarding pre-diabetes
- Unmet needs of family caregivers of the elderly with cancer and its relationship with resilience and family functioning in chemotherapy centers in Tabriz.
- The scenarios of future Home Health Care (HHCS) on the horizon of 20 years.
- The social capital and its relationship with quality of life and self-efficacy in older people of Tabriz

Training Course (Participant or Speaker)

- Elementary Research Workshop (Speaker)
- Job Hazards in nursing (Speaker)
- Research Workshop (Speaker)
- Advanced Research Workshop (Speaker)
- Qualitative Research Workshop (Participant)
- Search in medical resources (Participant)

Common errors in article writing (Participant)
Electronic education (Participant)
Qualitative research method with grounded theory approach (Participant)
Common errors in medical science studies (Participant)
MAX-QDA software (Participant)
Introduction to Scientific Editing and Writing for Graduate Students (Participant)
Class management method (Participant)
ESME workshop (Participant)
standard principles and reporting in clinical trials (Participant)
Prevention of plagiarism (Participant)
New evaluation methodology (Participant)
Adobe connect & Comtasia (Participant)
Ethics in research publishing (Participant)
Rapid qualitative studies in critical situations (Participant)
Knowledge translocation (Participant)

Honors and awards

1st in the article section of the first regional festival and the fourth educational student festival of Shahid Motahari, 2015
1st in nursing section in 23rd medical students annual national research congress & the 9th medical students International research congress, 2022
Certificate of thanks for participating in the national program "National Mobilization Plan to Improve the Health of Iranians" from the head of the executive staff and executive officer of the plan.
